Federal Income Taxes Due

TAXES PAID BY MARRIED MAN WITH NO CHILDREN

March 15 is the deadline for paying federal income taxes. With personal exemptions reduced from \$2,500 to \$2,000 for heads of families, and from \$1,000 to \$800 for single persons, approximately 2,000,000 more returns will be filed this year. More taxes will be collected because personal exemptions are lower, surtaxes are higher, and because 10 per cent has been added for national defense.

Observe National Prison Sunday

Salvation Army workers visited prisons, jails and other penal institutions throughout the nation recently. About fifty thousand inmates attended the services which were followed by private conferences with prisoners requesting them. Army workers are shown as they conducted services on Prison Sunday.

STAPLES DEFENDS STAMFORD SCHOOLS

Subsequent to the publication last week of our article "What's Wrong With Our Schools?" — we are in receipt of the following letter from Mr. Leon C. Staples, Superintendent of Stamford Schools.

March 8, 1941

Editor, La Tribuna

Stamford
Connecticut

Dear Sir:

There is a constructive approach to all problems of our day. Witch hunting and fault finding have never remedied anything connected with human affairs. Public education has never been in a state of perfection and probably never will be. The leaders in American education fully recognize the fact that the schools belong to the people and that this rapidly changing civilization demands constant readjustment to the needs of our day. In Stamford, at least, the

way is wide open to all who desire to help in this problem of the re-direction of education. Mr. Editor, you are cordially invited to become a lay member of the Committee on Instruction which is now engaged in formulating a state-wide program of education.

Generalizations about our schools is mean propaganda from those who would weaken or destroy public education altogether. Specifically do you have any evidence of subversive teaching in the schools of Stamford? I have every reason to believe that there is no teacher in Stamford who is not loyal to our government or who is not committed 100% to the democratic way of life. If I am wrong, I should be pleased to receive any evidence to the contrary.

The complaint of the business

Italian Center Drive

Corporation Council Joseph J. Rinaldi will head the Annual Membership Campaign of the Italian Center during the coming month of April.

The Economics of Our National Defense Program

By George Peck

PART ONE

All Americans are pretty well agreed that the Defense Program is essential and should be speeded up. We may differ as to methods to be used, as to the quantity of armaments that should be manufactured and the amount of money that should be spent; we may be divided in our opinions as to just how much aid should be given to England; we may have divergent views as to just how great powers should be given to the President; and we may disagree as to the possibility or probability of an actual invasion of our shores, but we are as one in realizing that the world is on fire and that we must provide ourselves with adequate fire-fighting equipment.

Now, in order to arm ourselves

A Stamford

— La partenza di coscritti e soldati della Guardia Nazionale per i campi di esercitazioni militari metteva questa Comunità, come tutte le altre dello Stato in pieno orgoglio, ansietà ed isterismo come di un'immediata entrata in guerra di Uncle Sam — Questi baldi giovani d'ogni razza, colore e credo, che hanno in cuore la difesa della loro Patria e sue Istituzioni, faranno il dovere loro affidato di saperla difendere nei suoi maggiori pericoli di libertà e Indipendenza — La leva militare che in tempo di pace era un mito per gli Stati Uniti d'America, ha prodotto nel suo

popolo un'impressione tale come la pace sia ormai svanita e la Nazione impegnata in una prossima guerra, che come parecchi Soloni del Congresso affermano, non sarà sua, come non fu nella precedente guerra mondiale — Ma lo spirito della coscrizione militare e dei baldi giovani addestrati alle armi non è da confondersi collo spirito di combattere le altrui guerre fuori del proprio Continente, ma unicamente per la propria Difesa Nazionale nei pericoli in cui la Politica Estera del Governo di Washington s'è ingolfata militarmente ed economicamente da rendersi necessario la preparazione di guerra ricorrendo alla permanente coscrizione militare anche in tempo di pace, col sistema di altre derise Nazioni nel resto del mondo.

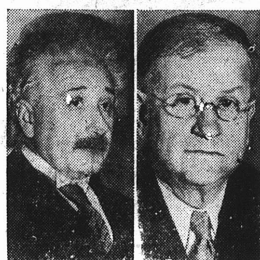

Noted Chemist

Dr. Linus Pauling was given the coveted William H. Nichols Medal on March 7 for "original research in chemistry" by the American Chemical Society. Dr. Pauling, at 39, is the outstanding theoretical chemist of the U. S. and probably of the world.

Birthdays of the Week

Two Americans, experts in the fields of mathematics and government, will celebrate their birthdays this week. Albert Einstein will observe his sixty-second birthday March 14, and the following day Secretary of the Interior Harold L. Ickes will observe his sixty-seventh birthday.
