The final statement that education is "worth looking into" is sound. It is also worth understanding. It can only be understood through long study and observation. Its leaders are, by and large, honest men and women who are only too glad to explain their work and are willing to receive constructive criticism. If our civilization is to survive and our democratic way of life is to be maintained, education must be given its rightful place and educators must be helped and not be made scape goats for all the disasters of our modern world.

Very truly yours, Leon C. Staples Superintendent

Hope For The Future

Time has called another aged year To peaceful rest upon a snowy bier. Sheltered from the bitter swords of hate The wounded weary traveler lies in state.

Stirred from blackened ashes by a song A young successor rises lithe and strong, With gentle hand he comes to guide the world His silken flags of friendship full unfurled.

Let minds be set at peace and hope be new Let upward paths be trod with footsteps true. Unshackled from the hurts of evils gone We've memories of joys to lead us on.

The year may bring us heartbeats, smiles or care The pangs of sorrow but the gift of prayer. Let hate be at an end, dissension cease, And from the flames ascend the Dove of Peace.
